 PHONE: (847) 729-5300 - FAX: (847) 729-7062  
 WWW.MARCHPUMP.COM

## DESCRIPTION:

The [TE-5S-MD](#) is a centrifugal magnetic drive pump, eliminating the need for a shaft seal. It is serviceable with a screwdriver.

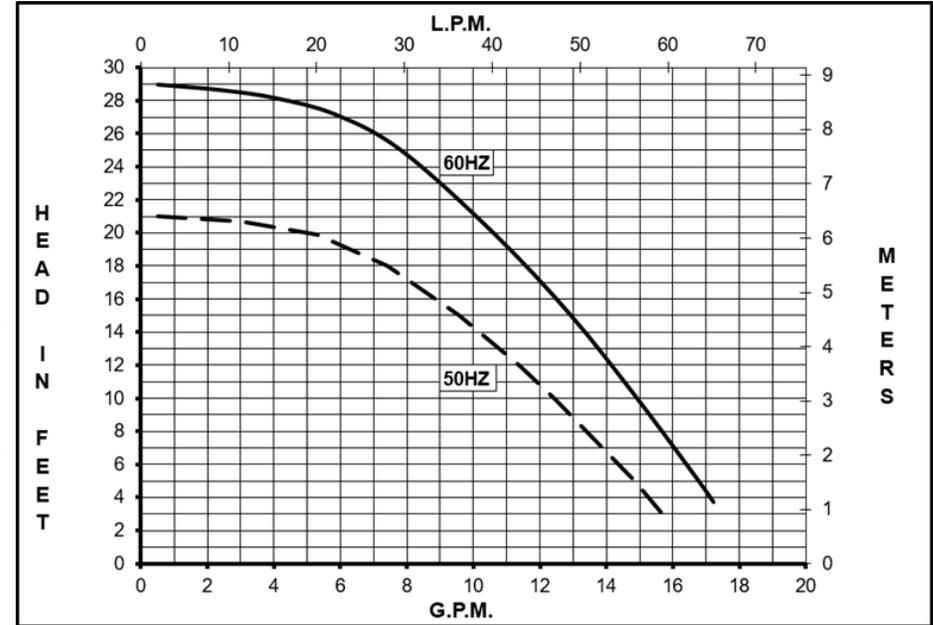

## OPERATION:

Pumps are not self-priming, lack a suction lift, and thus require a **flooded suction**. Pumps **cannot be run dry** because the impeller requires the liquid being pumped for lubrication. For liquids with a specific gravity greater than water, have a higher viscosity, or for elevated temperatures, a trimmed impeller may be necessary. For application assistance, contact March Pump.

## ELECTRICAL:

TE-5S-MD motor are dual voltage, 1 phase 115/230 Volt, 60 Hz, 115/220V, 50Hz, or 3 phase 230/460 Volt, 60/50 Hz. Motors are totally enclosed fan cooled, rated for continuous duty, have a conduit box for electrical connections, and neither is rated for variable speed.

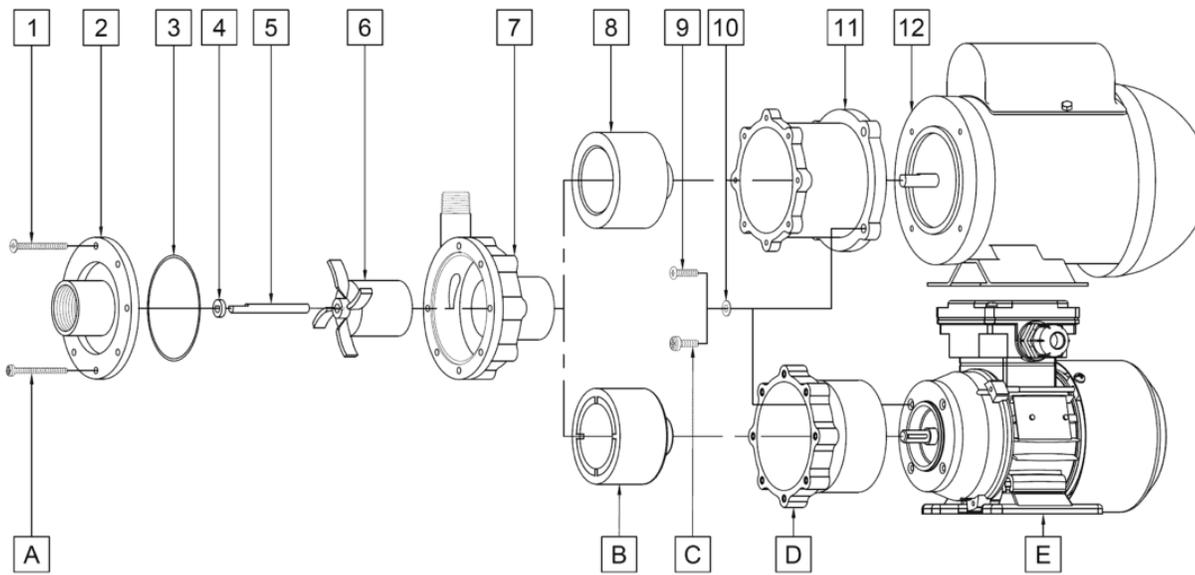

## TE-5S-MD 1&3 Phase

Specifications		TE-5SMD
Product	1Ph	0150-0214-0300
	3Ph	0150-0220-0300
Inlet-Outlet		1" FPT-1/2" MPT
Max Internal Pressure		200PSI (1378 kPa)
Max Liquid Temperature		250F (121C)

Model	60Hz											50Hz

Materials in contact with the liquid: 316 Stainless Steel, Carbon, Viton, Ceramic.

NOTE: Contact Factory for other materials and/or parts not listed.

Special voltage motors are available upon special order.

**LIMITED WARRANTY:** March pumps are guaranteed only against defects in workmanship or materials for a period of one year from date of manufacture pumping water. For the complete warranty and to register online go to [www.marchpump.com/warranty-registration](http://www.marchpump.com/warranty-registration)

For the General Installation Manual, see this link <https://www.marchpump.com/wp-content/uploads/2019/07/march-pump-general-installation-guide-0750-040.pdf>
